Trusts	673	3.0	1.6	0.9	1.4	2.9	1.5	0.9	1.4
Miscellaneous investing	679	1.1	0.6	0.5	0.5	1.1	0.6	0.5	0.5

¹ The incidence rates represent the number of injuries and illnesses per 100 full-time workers and were calculated as: (N/EH) X 200,000, where

N = number of injuries and illnesses
EH = total hours worked by all employees during the calendar year
200,000 = base for 100 equivalent full-time workers (working 40 hours per week, 50 weeks per year).

³ Total includes cases involving restricted work activity only in addition to days-away-from-work cases with or without restricted work activity.

⁴ Days-away-from work cases included those which result in days away from work with or without restricted work activity.

NOTE: Because of rounding, components may not add to the totals. Data presented in this table will be published in future Bureau publications.
